

# True or False ?

Divide 2-digits by 1-digit (1)

$84 \div 2$  is equal to  $80 \div 2 + 40 \div 2$

# False

The calculations are not the same. 84 can be partitioned into 80 and 4 not 80 and 40

$$84 \div 2 \text{ is equal to } 80 \div 2 + 4 \div 2$$
