

Tuesday Afternoon Activity

Your Task: Choose from these game boards, but you can do them all too!

Use the game board template 1 and design two games.

Game 1: For children in KS1 – to develop their maths skills.

Game 2: For children in KS2 – to develop their knowledge about a variety of topics.

Remember to have a set of rules for your game – not too many and not too complicated too.

You can think about game boards such as snakes and ladders – to make your game board interesting or you can search the internet for ideas to make it fun for the two groups! We would like you to share your game boards with your teachers and hope you will have fun in completing the activity!

Game board 2 template (colours)

Use this template to design any game for any age group. Tell us about your game and don't forget the rules of your game!

Be creative!

Be Awesome!
