Collaboration
As collaborators we will take turns and consider different views. We will respond to each other’s opinions.

Creativity
As creators, we will think creatively in our learning and begin to learn new techniques for how to make and present our work.

The World and Me
As super citizens, we will help others and understand that there are people less fortunate than us; we will share.

Critical Thinking
As learners, we will use our higher order thinking skills such as comparing, investigating, ordering and evaluating.

As Writers we will...
Think about language choice to write poetry. We will use key features to write letters.

As Readers we will...
Compare scenes, plots and characters in traditional tales. We will identify and discuss our favourite vocabulary and think about word meanings.

As Mathematicians we will...
Use standard units to estimate and measure. We will interpret and construct graphs. We will understand the 2, 5 and 10 multiplication and division facts.

As sportspersons we will...
master basic movements including running, jumping, throwing and catching, as well as developing balance, agility and coordination, and begin to apply these in a range of activities. Also we will perform dances using simple movement patterns.

As Geographers we will...
Identify and name the world’s continents and oceans and understand the purpose of maps. We will also name and identify key physical features such as: coast, forest, vegetation.

As Scientists we will...
Explore, observe and collect data about materials and their properties. We will perform simple tests and record our findings in different formats.

As faith learners we will
describe some festivals, celebrations and practices and say how they reflect the core beliefs. As Panjabi speakers, we will Recap first 4 sets of letter sounds and 3 vowels (First 15 alphabets and kanna, bihari and sihari vowels). Learn next 1 set of letter sounds (Next 5 alphabets. Start making mukta words.

As Musicians we will...
Begin to sing in tune with expression and control. Compose lyrics for a simple song and understand the role of music in charitable giving.

As Digital Citizens we will...
Recognise that algorithms are instructions on computers and use technology safely to write a series of commands for our own digital character.

As Artists and Designers we will...
Manipulate clay for a variety of purposes using techniques such as scoring, coiling and rolling.

As Historians we will...
Ask and answer questions about the past. We will recognise why people did things and investigate traditional artefacts. We will order events chronologically.

As sportspersons we will...
master basic movements including running, jumping, throwing and catching, as well as developing balance, agility and coordination, and begin to apply these in a range of activities. Also we will perform dances using simple movement patterns.
